

REPUBLICANS SWEET ENTIRE COUNTRY

INDICATIONS POINT TO G.O.P. CONTROL OF BOTH HOUSES OF CONGRESS

WASHINGTON, Nov. 6.—Safe Republican majorities in both the senate and house were claimed by the national Republican congressional committee in a statement issued here at one o'clock this morning.

ST. LOUIS, Mo., Nov. 6.—On the face of returns received early today (Wednesday) it appears Speaker Champ Clark has been defeated by 400 votes by B. H. Dyer, Republican.

NEW YORK, Nov. 5.—At midnight the congressional election returns were just a little more than half in, and on the figures then at hand, showed a gain of eight seats in the house and three seats in the senate for the Republicans. Up to that hour, Acting Chairman Cummings of the Democratic national committee had issued a statement claiming Democratic gains in both houses of congress.

Chairman Hayes of the Republican national committee had not issued a statement but said he felt sure the Republicans would control the house. The turnovers came in New York, Kentucky, Pennsylvania, Maryland and Kansas but so closely was a Democratic defeat in one district neutralized by a Republican defeat in another that the net results were virtually close.

The Democratic leaders in congress, Senators Simmons of North Carolina and Representative Kitchin of North Carolina were re-elected as were the house Republican leader, Representative Mann of Illinois, and the acting Republican leader, Representative Gillette of Massachusetts.

Former Speaker Cannon of Illinois was re-elected to what will be his twenty-second term in congress, a record of service interrupted by only two defeats.

Meyer London was defeated by Henry M. Goldfogle, a Republican, running with Democratic support but the Socialists retained representation by electing Victor Berger from Wisconsin. Other Socialist candidates were defeated, among them Morris Hillquit.

The senatorial returns at midnight showed Henry Ford on the Democratic ticket in Michigan behind Truman H. Newberry, Republican.

The only complete governorship returns at hand at midnight showed the Republican tickets elected in Pennsylvania and Connecticut and Governor Whitman of New York coming downstate with a heavy plurality which promised to wipe out the advantage of Alfred E. Smith, the Democratic candidate in Greater New York. Republicans in Indiana claimed a safe lead on the state ticket. Lieutenant Coolidge of Massachusetts, Republican, was claiming his election. The first returns from the senatorial contest in Nebraska showed Senator Norris, Republican, and John H. Morehead, the Democratic candidate running very close. The election of the Republican ticket in Rhode Island and Vermont was indicated and it also was claimed in South Dakota.

Massachusetts—Coolidge, Republican candidate for governor, claiming election. Former Governor Walsh, leading Senator Weeks, Republican by thirteen thousand votes with half the state heard from. Senator Weeks was running behind Coolidge.

Missouri—Former Governor Folk, running for the senate to succeed the late Senator Stone, Democrat, was behind Judge Spencer, the Republican candidate and the St. Louis Globe-Democrat, Republican, claimed Spencer's election. Missouri was running behind.

Nebraska—Senator Norris Republican running very close with former Governor Morehead.

New Hampshire—Governor Keyes, leading for full term; very close with Moses, Republican leading for short term.

New York—Smith, Democrat, leading Whitman, Republican but Whitman gaining as upstate returns are tabulated.

New Jersey—Senatorial contest so close the outcome may not be known until after the election. Both sides are leading for both long and short terms.

Ohio—With little less than a fifth of the state reported Governor Cox was leading Former Governor Willis, Republican. The prohibition issue was in doubt.

Rhode Island—With seventeen districts missing Senator Colt, Republican appeared to be re-elected by at least 3,000 over Representative O'Shaughnessy, and it was indicated that all three Republican candidates for the house had been elected.

South Dakota—Re-election of Governor Norbeck, Republican was claimed by the Republican leaders.

Vermont—Republican ticket elected.

West Virginia—Elkins Republican candidate for the senate was leading Former Senator Watson, Democrat.

Wisconsin—Governor Philipp, Republican re-elected by plurality estimated at 15,000 to 40,000 against 63,000 votes ago. Wisconsin Governor Re-Elected. The Republican governor of Wisconsin claimed re-election. The congressional returns at midnight were too incomplete to indicate whether the complexion

FOCH HAS TERMS OF ARMISTICE FOR GERMANY

Awaits Application By Military Command On Field

AMSTERDAM, Nov. 5.—(By The Associated Press.)—Germany, of Berlin said that General von Winterfeldt, former German military attaché in Paris, will conduct the armistice negotiations for Germany on the western front.

WASHINGTON, Nov. 5.—Marshal Foch has the terms of armistice for Germany and awaits application for them by the German military command in the field. The government at Berlin is so informed in a note which Secretary Lansing handed to Minister Lanning of Switzerland tonight announcing that the Allies have declared their willingness to make peace on the principles enunciated by President Wilson. The note now is on the cables. In twenty-four hours it should be in the hands of the Germans; in forty-eight hours the world may know whether an immediate armistice is at hand.

The details of the armistice terms still is withheld. They may not be known until the Germans have accepted or rejected them, as the course followed by the Allies in dealing with Bulgaria, Turkey and Austria. Only the details are in doubt and no one questions that acceptance means a complete surrender. The statement has been authorized under which Austria passed out of the war have been followed closely, and in answer to queries for further information officials said tonight the statement of Premier Clemenceau, cabled from Paris by The Associated Press told the story: "The terms," said M. Clemenceau, "are what President Wilson recommended himself to us for the security of our troops, the maintenance of our territory, the disarmament of the enemy insofar as that is necessary to prevent a resumption of hostilities, and the preservation of the freedom of the seas and a specific statement that by restoration is meant that Germany must make compensation for all damage done to civilian populations and their property 'by land, by sea, and from the air'."

Thus much of the real work of a peace conference has been done in advance. The German government has accepted the President's terms, now they must accept the Allied qualifications. If they want to stop with advance of the Allied and American armies in placing the matter of an armistice in Marshal Foch's hand and at the same time informing the Germans thru President Wilson the associated nations have strictly observed the diplomatic rule of making an armistice a purely military measure.

Alsace-Lorraine—mentioned in the Allied memorandum. The entente governments know and it is assumed that the Germans understand that by righting the wrong done to France, President Wilson meant in the terms accepted by Germany the return of Alsace-Lorraine to France.

Text of Reply to Germany. The text of Secretary Lansing's note follows: "I have the honor to request you to transmit the following communication to the German government: 'In my note of October 23, 1918, I advised you that the president had transmitted his correspondence with the German authorities to the governments with which the government of the United States is associated as a belligerent with the suggestion that if those governments were disposed to accept peace upon terms and principles indicated, their military advisers and military advisers of the United States be asked to submit to the governments associated against Germany the necessary terms of such an armistice as would fully protect the interests of the peoples involved and insure to the associated governments the unrestricted power to safeguard and enforce the details of the peace to which the German government had agreed provided they deem

Returns Point To Defeat of Henry Ford

DETROIT, Mich., Nov. 5.—Returns tabulated at 11:30 Tuesday night from one-fourth of the precincts in Michigan gave Lieutenant Commander Truman H. Newberry, (Republican) a lead of approximately 15,000 over Henry Ford (Democrat) for United States senator. Republican state headquarters claim Newberry's election by at least 40,000 majority over Ford.

Governor Alfred E. Sleeper, Republican, and the entire Republican state ticket seemed to have been returned by large majorities on the face of available returns. Complete returns seem to indicate the re-election of the eleven Republican congressmen. In the second district Congressman Samuel W. Beaks, Democrat, is running behind Earl C. Michener, Republican. Early returns show a majority in favor of the suffrage amendment. If the present ratio is maintained the amendment will be adopted by 10,000 majority.

GERMANS ARE RETREATING OVER 75 MILE FRONT

Allies Have Crossed Franco-Belgian Border

LONDON, Nov. 5.—(By The Associated Press.)—The Germans are retreating on a seventy five mile front from the River Scheldt to the River Aisne.

In the face of the German retreat the situation changes so rapidly hour by hour that it is impossible to give a definite idea of the Allied advance. Roughly the Allies have crossed the Franco-Belgian frontier between Valenciennes and Bavay, which is eight miles west of the fortress of Maubeuge. The Allies are within two miles of Bavay. They have captured the whole of Mormal forest except the eastern edge.

Then the line runs from Marolles to the western edge of Mormal forest two miles east of Guise, two miles south of Marie, and along the Serre River to Clermont River and then in a straight line to Chateau Porcain. Owing to the bad weather the Allied pursuit has lost touch with the enemy's main body. French troops have crossed the Ardennes Canal on both sides of Le Chesne and have advanced for a distance of about a mile.

The Americans have forced the bridgehead south of Dun, on the River Meuse but have not yet occupied Dun.

Enemy Defenses Crumble. In Belgium and France, Nov. 5.—(Reuters)—The third and fourth British armies and the first French army maintain their heavy pressure against the crumbling enemy defenses. The British this morning were nearly two thirds of the way thru the forest of Mormal, the infantry battalions are mentioned in the call and 46 states are asked to furnish the necessary number.

Total calls for military service for November have now passed the 310,000 mark and are far in excess of previous monthly mobilization under the draft.

ITALIANS BREAK PRISON CAMPS. Amsterdam, Nov. 5.—Twelve hundred Italian officers and 12,000 men, having overpowered their guard in the prisoners' camp three miles from Vienna, are marching in the direction of Horn, forty six miles northwest of the capital, according to a dispatch from Vienna to the Dusseldorf Nachrichten.

STRIKE LAND AFTER WEEKS OF EXPOSURE. Turks Island, B. W. I., Nov. 5.—The captain and seven men of the Norwegian bark Steffner, who had been missing since their vessel was stopped by a German submarine and they were forced to a small boat on October 13th, have arrived here after more than three weeks exposure and in an almost starved condition.

conflict of the war. The Germans yesterday got the worst hammering they have ever received. It has become a habit of speech to say that the enemy is unbroken and unbeaten but it is a habit which is being broken by the present rate the Allied world is likely to awake suddenly to the realization that this statement has ceased to be true.

WAR SUMMARY

News of Activities On Various Battle Fronts in Summarized Form by Associated Press.

The terms on which Germany may have peace have been delivered. The element of softness is absent from them. Like the peace given Austria-Hungary, Turkey and Bulgaria the price Germany will have to pay is virtually the price of absolute surrender. The claims of the great military machine Germany are to be drawn, invaded territories must be evacuated and compensation must be made for all damage done to the civilian populations in attacks by the land and sea and from the air. Impotency by Germany again to take the field is to be insisted on. Meanwhile the German armies in Belgium and France are being donated. Nowhere are they able to stay the attacks of the allied forces. Ground is being given over wide area in Belgium and in France from the Belgian border to east of the Meuse river.

The British and Belgians in Flanders have dug deeply into enemy-held territory and the enemy is reeling under the assaults. From Valenciennes to the Aisne the British and French are driving the enemy in what seems utter disorder backward toward his border. Greater, perhaps, than all the other strokes is that of the American and French in the Meuse river region north and northwest of Verdun where fast strides are being made northward over a wide front which threaten to cut off the enemy's retreat and bring about a defeat of the Germans on the battlefield.

From Belgium to the Meuse the Germans are in jeopardy. Especially critical is the situation for them in the great sack from Belgium to the north of Rheims for with the advance of the Americans and French north and with the important lines of communication under fire it seems probable that large numbers of them are destined to be cut off and forced to surrender. Likewise the crossing of the Meuse river by the Americans places in peril the large enemy forces in Lorraine south of Metz. There are indications that operations with a view to overwhelming the enemy in this region are in the making. The German official communication of Tuesday announced that the Americans had made partial thrusts west of the Moselle river, which runs thru Metz.

Large numbers of towns have been reclaimed by the allied troops thruout the entire fighting zone. Many thousands of Germans have been made prisoner and large numbers of guns and enormous quantities of stores have been captured. In addition the enemy has suffered terrible losses in men killed or wounded.

Judging the situation from the military map the crisis on the battlefield is at hand. The Germans have come to the realization that the Foch military machine is the master of the German machine. Therefore, they are giving ground everywhere before it—seeking their border line in order to prevent being crushed.

CROWDER CALLS FOR 18,300 MORE

WASHINGTON, Nov. 5.—Provost Marshal General Crowder today called for 18,300 draft registrants physically qualified for limited service to entrain for camps between November 25 and 27. Voluntarily enlistments will be accepted until November 29.

The supply of the food program worked out by the inter-allied food council, of which food administrator Hoover is a member, calls upon America to ship to the allies 17,500,000 tons of foodstuffs the coming year. With the necessity of assisting in feeding civilians of middle Europe it is roughly estimated that 5,000,000 tons will have to be added to that figure, the ending of the war necessarily will make possible increased production thruout Europe next year.

GERMANY WILL BE OFF FROM SUPPLIES

WASHINGTON, Nov. 5.—One effect of the elimination of Austria from the war, the fuel administration announced tonight will be the cutting off of Germany's supplies of fuel, oil and gasoline.

Germany has been obtaining fuel oil and gasoline from Galicia and Roumania and was planning to export extensively from the Caucasus the announcement said, but under the terms of the Austrian armistice all traffic between Germany and her former allies must stop. Within the German borders there are no supplies of fuel oil and information possessed by the fuel administration is that Germany has been using benzol—a derivative of coal tar—for lubricating oil. This latter source, it was said will not supply German needs.

The Italian fuel situation which has been serious from the beginning of the war, it was said will not be improved materially by the Austrian armistice. The Austrian mines worked to full capacity furnish only enough coal for the nation's needs. Demobilization of the Austrian army will allow the return of miners to their work and thereby prevent suffering because of lack of fuel within that nation this winter but will not provide supplies sufficient to aid Italy.

U. S. AND ALLIES WILL FEED ALL NEEDY COUNTRIES

Plans Made Public in Message From Col. House

WASHINGTON, Nov. 5.—America and the allies are planning to co-operate in making available as far as possible food and other supplies necessary for the lives of the demoralized civilian populations in once enemy countries.

This became known tonight thru the publication of a message from Colonel E. M. House at Paris to President Wilson saying the supreme war council at Versailles had adopted a resolution announcing its desire to co-operate with Austria, Bulgaria and Turkey in furnishing the necessities of life for the suffering peoples of these nations.

"The supreme war council in session at Versailles desires to co-operate with Austria, Turkey and Bulgaria in the making available as possible of food and other supplies necessary for the lives of the civilian population of those countries," said Colonel House's message.

This announcement is expected to have far-reaching effect in Germany, where from all accounts the food situation is only a little less serious than it is in the countries until recently allied with Germany.

Conditions are represented as particularly serious in Austria-Hungary where food riots have been frequent and where there had been intense suffering from the want of food, clothing and other necessities.

Food Administrator Hoover, it was said, tonight is working out new food conservation plans to assure supplies not only to the peoples of the nations that have been eliminated from the war, but also the liberated populations of Belgium and northern France and even Germany when that country has accepted armistice terms now in the hands of Marshal Foch.

It is understood that the plan contemplated by Mr. Hoover but which the president is not known to have approved, provides for a rationing system similar to that employed in Belgium by the commission for relief in Belgium which was worked out by Mr. Hoover and his assistants on the basis of the required number of calories necessary for each individual.

All available food supplies in the central powers would first be apportioned, including the reserves if any, held for armies, it was said. A survey is being made by the food administration to determine the world's food supply. Pending its completion the new food conservation plan for the American public is held up. The survey will include close investigation of the inter-allied food conditions.

Austrian merchant ships, it was said, may be used to transport these supplies. The food program worked out by the inter-allied food council, of which food administrator Hoover is a member, calls upon America to ship to the allies 17,500,000 tons of foodstuffs the coming year. With the necessity of assisting in feeding civilians of middle Europe it is roughly estimated that 5,000,000 tons will have to be added to that figure, the ending of the war necessarily will make possible increased production thruout Europe next year.

M'CORMICK ELECTED SENATOR OVER LEWIS BY 40,000 MAJORITY

CHICAGO, Nov. 5.—Congressman Medill McCormick defeated Senator James Hamilton Lewis, the Democratic whip, in the contest for the United States senatorship from Illinois today by an estimated plurality of 40,000. Returns from more than half the state, 3,203 precincts, gave McCormick 246,692 and Lewis 239,427. These figures included eighty per cent of the Chicago vote where Senator Lewis' chief reliance for victory was placed.

Richard Yates former governor and William E. Mason polled almost as extensive Republican vote for congressman-at-large as did Mr. McCormick for the senatorship. Representative Mason ran behind his teammate rather extensively in Cook county but kept close enough to him downstate to overcome this handicap. William E. Williams ran third downstate but on the face of returns from sixty per cent of Cook county was behind his Democratic running mate Michael Cleary.

Figures from 2,389 precincts out of 5,681 in the state and including 1400 from Cook county gave Yates 180,966; Mason 172,973; Williams 145,936; Cleary 143,335.

The Republican nominees for state treasurer, Fred E. Sterling, of Rockford, and for superintendent of public instruction, Francis Blair, of Springfield, seemed almost certain of election.

In the congressional elections there were close contests in the 15th, 16th, 21st and 22nd districts. In each case Republican incumbents seemed in danger of losing their seats in the lower house of congress.

The three propositions on the "Little Ballot" for a constitutional convention, a good roads bond issue and an amendment bringing private banks under the jurisdiction of the state authorities all received large affirmative pluralities. This was especially true on good roads.

ELECTION BULLETINS

NEW YORK, Nov. 6.—With returns lacking at two o'clock this morning from 630 districts in New York state the result of the gubernatorial contest remained in doubt. Governor Whitman, Republican, had a total of 918,931 as compared with 941,442 for Alfred E. Smith, Democrat.

CHICAGO, Nov. 5.—For state offices the Republicans elected their candidates, state treasurer, superintendent of public instruction and university trustees.

DALLAS, Tex., Nov. 5.—The entire Democratic ticket, national, state and local was elected in Texas today without serious opposition.

DES MOINES, Ia., Nov. 5.—Democratic state headquarters shortly before midnight claimed the election of Claude R. Porter as governor of Iowa over W. L. Harding, Republican, candidate for re-election. The Democratic claim said Porter's plurality would exceed 15,000.

COLUMBUS, O., Nov. 5.—At 10 o'clock, J. A. White, superintendent of the Ohio Anti-Saloon League, authorized the statement that on the basis of returns received from over the state that "Ohio is safely DRY."

BOSTON, Nov. 5.—Former Governor David I. Walsh, Democrat, was elected United States senator from Massachusetts by defeating Senator John W. Weeks, by a margin of approximately 15,000 votes. Lieutenant Governor Calvin Coolidge, Republican, was elected governor with a lead of about 8,000 over Richard H. Long, Democrat.

ST. LOUIS, Nov. 5.—Judge Spencer, Republican, of St. Louis, apparently has been elected United States senator from Missouri on the basis of returns from more than half the state at midnight. If elected he is the first Republican senator from that state since 1905. Congressman Decker, Democrat, of the fifteenth district, has lost to his Republican opponent; Congressman Charles F. Roeder, of the fourth district, is also in danger of defeat. The Republicans did not lose a place. Democratic leaders admitted there was a great slump in the Democratic vote.

The nine amendments including the statewide prohibition amendment have been defeated.

INDIANAPOLIS, Nov. 5.—The Republicans still maintained a good lead on the state ticket in Indiana early this morning and at state headquarters were predicting an increase in the party's representation in congress.

Republican lay claim to a majority of between 50,000 and 60,000 and "a clean sweep" of the thirteen congressional districts. The Democrats are quoted as being confident of success in returns from the fifth and thirteenth districts.

U. S. AVIATORS DROP TONS OF BOMBS

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Nov. 5.—5 p. m.—(By The A. P.)—More than three tons of bombs were dropped today on Mouzon and Raucourt as enemy troops passed thru the villages bound north. More than 120 bombing and pursuit planes participated in the attack. Fokkers attacked the Americans in groups of fifteen to twenty. Fourteen Fokkers were brought down at three American flyers are missing. The bombs caused fires in warehouses and barracks a consternation among the retreating Germans. Aerial photographs show thirty bomb holes in the railroad yards at Conflans. The main line thru Conflans was put out of commission at least temporarily, while all the tracks were damaged.

The Conflans railroad has been a regular target for American bombers and they were using this line to bring up troops which had been in the quiet sectors around Metz and in Lorraine. One photograph draws a line of freight cars on a siding, but no activity. A week ago the same yards depicted as humming with action, trains coming and going.

PEACE IS NOT FAR OFF—CLEMENCEAU

PARIS, Nov. 5.—5:30 p. m.—(By The Associated Press.)—Premier Clemenceau declared in the chamber of deputies today that peace might not be so near as some think.

The premier said, however, the Germans were using this line to bring up troops which had been in the quiet sectors around Metz and in Lorraine. One photograph draws a line of freight cars on a siding, but no activity. A week ago the same yards depicted as humming with action, trains coming and going.

Premier Clemenceau also announced in the chamber of deputies that the conditions of the armistice for Germany had been transmitted to President Wilson. They were inspired he added as were those for Austria to prevent a resumption of hostilities.

The JOURNAL'S SERVICE FLAG

They have something coming to them and all debts should be settled in the wind-up.

France was bled white but held grimly on. Of all nations in this war against Hun dominion France will have the greatest glory.

Karl of Austria is reported to be seeking a refuge in Switzerland. His reign was certainly a brief and a stormy one. They should get a double dose and give the Hohenzollern family a place of refuge.

The proposal by Sir Frederick Edward Smith, the British attorney general, that a grand court of Allied representatives, civil and military, be established to try persons charged with the commission of crimes during the war, is not a demand for vengeance, but for justice. There have been shameful crimes committed by men presumably acting under orders of officers of Germany, Austria, Bulgaria and Turkey that should be punished.

AMERICAN BLOCK GERMAN PLANS.
One of the best informed of the independent war critics declares that General Pershing's advance will rank as a major strategic accomplishment of the world war. He is moved to this observation by what has occurred within the three days last past.

By rushing their line north of Stenay, the Americans drove the Germans to a position which made it impossible for them to use the Meuse line in France for a final stand. And it also brought guns to bear on the narrow lane into Luxembourg, blocking that road for heavy masses of retreating troops.

American achievements in the war have been so creditable that the European allies are disposed to give this country a large share of the glory attending its outcome. And not the least creditable has been the effective breaking up of Germany's plans for another stand in eastern France.—Springfield Journal.

SHOP EARLY THIS CHRISTMAS.
Shop Early!

That slogan has been promulgated every year a few weeks before the annual holiday Christmas season, but there is vastly more occasion for this urgent admonition this year than ever before.

Remember we are at war, and changed conditions from former years confront us. There has been a general shake-up of clerical help in all the shops and stores in Jacksonville as well as elsewhere. If you wait until the last minute, and everybody else does the same thing, the Christmas rush will be nothing short of torture for both the shopper, the merchant and the clerk.

Now for once let us all use good common sense and determine right now to work on our Christmas shopping without further delay. Your holiday pleasures will be hugely multiplied by

following such asane and patriotic course.

Because of the influenza epidemic we should all co-operate in shopping early to avoid undue and unnecessary crowding of the toy and gift shops. Buy a present every day or so. Go about it leisurely right now, and by all means do not wait until the last minute.

You should get the gifts for soldiers at once, and mail them out without further delay. Also buy the gifts for the loved ones right here at home now. Don't put off this important matter. By shopping early you will render a patriotic service. Incidentally you may save some money.

From now on read carefully the holiday advertisements that will appear in the columns of the Journal.

"CARRY ON."

If the end of the war is in sight the ships bearing home the victorious troops are not. Poets are already beginning to sing of "when the ships come in" loaded with cheering men wearing garlands of victory. It is well to catch a glimpse in advance of those great and spacious days, for that will be, in a way, the greatest epic drama ever staged in the world. But such as may remember the days following the close of the Civil War cannot but recall that many weary months passed after the surrender of Appomattox before the boys in blue were coming back in great numbers. Even in our own land, with the defeated army dispersed but still militant in spirit to seize the advantage of any opportunity of rally which might offer, soldiers were disbanded only on the installment plan. Had a complete muster out been possible it would necessarily have been slow. The process of mustering out a great army, giving every man the justice of his record, tracing the missing as far as possible and placing in the archives of the War Department every particle of information relating to the actual service of the individual soldier must often run into more months than make up a year, says the Globe-Democrat.

Should the boys now, to recur to Henry Ford's rainbow, "out of the trenches" before Christmas, it might ease" be another Christmas before all of them or perhaps the greater part of them are home again. For when we speak only of the greater part we must speak now in terms of millions. We have now more than 2,000,000 men in France alone. Our total army strength is or soon will be 4,000,000 men. Mustering out such a mighty host will be a long and toilsome work. In that fact lies the strength of the appeal now soon to be made for raising \$25,000,000 for the Associated War Funds—Red Cross, Y. M. C. A., K. of C., and others—to "carry on" the great work they have already been doing in ministering to material, social and spiritual needs and ameliorating, so far as possible, the hard conditions of a military

life. We began this work and carried it on magnificently when our men in France were but few compared with the number that would be there even should peace be declared tomorrow. Ours have not, like the British or French soldier had the chance of a furlough. They will be even more anxious to get back than we can be to have them. Their lot will be more irksome under peace than war, or the prospect of it. If we fail them now we shall be guilty of ingratitude. If their duty continues over there does ours end over here?

Rippling Rhymes By Walt Mason

Hard on Hindenburg.
Three months ago the news was spread that old Dad Hindenburg was dead. He had a row with Kaiser Bill concerning proper ways to kill the old, the helpless and infirm; the kaiser's comments made him squirm; the blood rushed to his old fat head, and Hindenburg fell over dead. It seems he wouldn't stay defunct and Azrael was badly bunked. Late dispatch tells how once more he and the kaiser ripped and swore and called each other son of a gun, and cheap John imitation Huns. Then Hindenburg, with anger blind, threw down his sandbag and resigned. He handed in his large brass knucks which cost some money. German bucks, his slungshot and a pair of gats, his razor and his rough on rats, "I jump my job!" he sternly cried: "to save the country I have tried, but I've been made an also ran by you and your Butinski clan. I gave you quite a hint," he said, "that time when I fell over dead; but subtle hints are thrown away on such a bonehead royal jay. And now I'm thru! No more in mine! Here is my spiked club! I resign!" What will this warrior do next if by the kaiser he is vexed. Once he has died and once resigned; what other stunts has he in mind? The now and then his work is coarse, he is a man of great resource.

BRENNAN HAS GREAT DISPLAY OF TOYS

Toys Made in America are Featured—Display Shows That German Need Not Be Depended Upon for Toys.

"Made in Germany" toys have given place to those made in America, and to judge by the display of wonderful things made for the amusement and education of the youngsters, being shown in Brennan's store, on South Second street, there is a decided improvement in quality and variety. The display would have been much greater were it not for the fact that it is extremely difficult to obtain shipment of such articles during a time when railroad facilities are so taxed with the handling of necessities.

Terrance Brennan has made several trips to the toy markets and has succeeded in obtaining a truly wonderful array of pleasing toys for children of all ages and both sexes. Naturally toys this year run a great deal to guns, cannon, soldiers, etc., but there is an endless array of dolls, doll furniture, wagons, engines, kitchen furniture, little pianos, trains and trucks, on South Second street, there is a decided improvement in quality and variety. The display would have been much greater were it not for the fact that it is extremely difficult to obtain shipment of such articles during a time when railroad facilities are so taxed with the handling of necessities.

DR. NORBURY BUSY IN NEW YORK OFFICE

Letter to Jacksonville Friends Give Glimpse of Work of Mental Hygiene War Work Committee.

Dr. Frank P. Norbury, who is serving with the mental hygiene war work committee, is in the midst of busy activities. The office of the committee is at 50 Union Square, New York City. Dr. Charles L. Dana is the chairman of the committee and Major E. Williams is the vice chairman. This committee is a subsidiary of the national committee of mental hygiene, of which Dr. Norbury is the acting medical director. In writing to a Jacksonville friend recently Dr. Norbury said:

"My work here goes on in its usually busy activities. I am pleased that I can give the service required of me. I meet many home friends (Illinois people) both in and out of the service, but all doing something in war work. I do not expect to get back home except perhaps on a ten day leave, until the end of the war. We are now planning for the service that will be required to carry our boys home and their return to civilian life. This means a good deal of organization which will be national in scope. All of the work here is national in its scope. My duties include an advisory capacity both to the army and the navy. We also have certain overseas duties, so taking it all in all, we are constantly in touch with what is going on in the mental and nervous lines in this great war campaign."

NEWS FROM CHINA

A year or more ago a young Chinaman named Lin visited friends in this city and made a very good impression on all he met. He was at that time a student at the state university, graduating later with honor. His great ambition was to go back to his native country and start a school among his own people. He had relatives and interests in Siam where he went first and was married but the climate failed to agree with him and his wife and he went to China and from Canton where he was a teacher he wrote a friend in this city and from his letter the Journal is permitted to take some extracts.

Siam is an autocratic country and taking advantage of the weakness of the government in China had adopted a policy which is detrimental to the pride and honor and even the rights of the Chinese nationally. I am teaching in the college here only temporarily. Things in China are so unsettled due to the civil war and lack of protection to life and property on the part of the government both north and south.

Right in the city of Canton with several million inhabitants and the southern part of China life seems to be going on as usual, theaters, eating places and public resorts being crowded more than usual. Aside from the going and coming of soldiers no one would know that this great city is at war with the north part of the country where a parliament has reconvened at Peking and a military government with five heads has established itself.

The north has gone bankrupt and has borrowed of Japan hundreds of millions of dollars giving as security the telegraphs, mines, revenues and no one knows what else. The south is not much better off only it has not gone so far in the matter of loans from a foreign enemy. The parliament and the southern leaders claim they are fighting for principle. The south claims the parliament in the north is illegal and so we have two governments, one in Peking, and one in Canton. It is quite mixed up and compromise seems impossible. Fighting is going on at different points and we are in a way like Europe on a smaller scale and the people are the sufferers.

Canton is a great city situated on the Pearl river and bearing on its surface picturesque junks and beyond are lofty mountains with fortresses behind them. When the weather is fine you can take a walk in the country and see people hard at work on their farms to make a living.

A letter from Dr. H. N. Kinneer at Poochow where is located Rev. J. L. Christian, missionary pastor of the Congregational church in this city, says that affairs there are in a very unsettled condition. The city is perhaps half way between Canton and Peking and is at present in a very bad way. There are numerous looting, murdering, holding people for ransom and doing all sorts of things and the soldiers sent against them by the government sometimes even sell their outfits and fraternize with the robbers. Matters generally are in a bad way in that great country.

PAUL J. STOUT DIED IN SERVICE

Local Boy Succumbs to Pneumonia Following An Attack of Influenza.

Mrs. Lillian B. Stout of 723 Pearl street received official notice yesterday of the death of her son, Paul J. Stout, which occurred in France on October 8th.

Deceased was the son of Milton E. and Lillian B. Stout and was born and reared in Jacksonville.

He enlisted in the coast artillery at Jefferson Barracks on June 3, 1915, before the United States entered the war. He was transferred to Fort Hancock, New Jersey. While there he was united in marriage to Miss Mae Powers of 275 Lexington avenue, New York City. Shortly afterward he came to Jacksonville on his honeymoon.

Last February he was transferred to instructor in automobiles and tractors and was greatly interested in his new work.

His father, Milton E. Stout, was one of the best known deaf mute citizens in the city. For a period of forty years he was employed at Diamond Grove cemetery. He died in January, 1914.

Besides his widow he is survived by his mother, Mrs. Lillian B. Stout, and the following brothers and sisters: Roy M. Stout, Milton E. Stout and Clinton B. Stout and Mrs. Mae Doolin of this city and Mrs. Annabel Wild of Chicago.

WASTE OF SUGAR

THE following bulletin was among the most forceful and effective bits of conservation propaganda at the New York Food Show last month. It was put out by the National Sugar Refining Company of New Jersey:

"Save the waste!
"One hundred million cups coffee used daily in United States.

"Seventy million cups tea used daily in United States.

"One hundred and seventy million cups tea and coffee.

"If even an average of half a teaspoonful of sugar per cup is left undissolved at the bottom of cups of tea and coffee the waste would be 1,700,000 pounds of sugar daily.

"Stir your sugar until it dissolves. It's estimated that one-third to one-half of all sugars used in homes is lost in tea and coffee. Think it over—how is it in your home? Isn't there a chance for saving?"

What is

Chiropractic

Chiropractic is a drugless health science of the cause of so-called Dis-ease (or lack of ease) and the art of adjusting the human spine when its segments are out of natural alignment, so that mental impulse can transmit naturally thru the nerves to provide normal health function to every organ and part of the body.

It is a system of adjusting that includes the use of nothing but the bare hands to locate a subluxated joint and effect its replacement to normal position.

It is the Chiropractor's theory that the great majority of all Dis-eases is due to mal-positioned vertebrae, this preventing the proper nerve impulse—relieving this pressure, or stoppage, by a correct adjustment, allows Nature its rightful work.

If you are one who has failed to find relief from suffering, I shall be glad to talk to you, and will tell you quickly and honestly if Chiropractic can benefit you.

MIXED VERDICT IN COUNTY ELECTION

Four Republicans and Two Democrats Chosen

W. H. Weatherford Highest Man With Majority of 783—All Winning Candidates Had Safe Margins—Favorable Votes Indicated on Public Questions.

COUNTY OFFICERS ELECT AND MAJORITIES

Judge
PAUL SAMUELLE.....549

Clerk
GEORGE L. RIGGS.....351

Sheriff
W. H. WEATHERFORD 783

Assessor and Treasurer
GRANT GRAFF.....596

Superintendent of Schools
H. H. VASCONCELLOS 196

Commissioner
JAMES M. SWALES.....237

The election yesterday might be termed a Republican landslide, although two Morgan county Democrats survived. Democrats and Republicans have been of one mind in the appeal issued by President Wilson a week ago would have no effect on the congressional and senatorial election and in some measure it was felt even in local affairs. However, the result shows that local and personal conditions ruled in the county, with the candidates winning who were the most active workers.

It was a campaign of a kind never known before in this county, for the apparent lack of interest and enthusiasm in the pre-

election days. However, this apathy was not conspicuous yesterday, for the weather conditions were ideal and enough interest developed to bring about practically a normal vote. Both Republicans and Democrats were somewhat in doubt as to what the war effect would be—that is, which party would lose the most votes because of the men who entered the service. Both parties made some effort to secure absentee ballots in accordance with the law, but in most instances the mail service was so slow that ballots were not received in time for recording.

Paul Samuelle, the successful candidate for county judge, did not file for nomination until the last day, so that he had a brief campaign. However, he went vigorously to work and his canvass of both county and city precincts was thorough as his splendid majority shows. In Judge he had a well known and vigorous campaigner to cope with.

The contest between C. A. Boruff, present county clerk, and George L. Riggs, Republican candidate, was not decided until returns from a majority of the precincts were in. Mr. Riggs conducted a very close, painstaking campaign in a quiet and what has proved a very successful way. He impressed the voters by meeting with the fact that he is competent to run the office and was worthy of the position. Mr. Boruff has served efficiently but the fact that he was a third term candidate was undoubtedly of use to Mr. Riggs in making his campaign.

When W. H. Weatherford secured the Democratic nomination for sheriff it was after one of the most thorough campaigns ever made by a county candidate. He spent most of his time in the county precincts and where farmers were in the field and in need of help he often "lent a hand" for a half day. In still other ways he ingratiated himself into the good graces of the people and was rewarded by a very large margin. Something of the same policy was pursued in making his campaign for the office.

and day he was certain to be the job. His experience as a sheriff in the office will be of value and he will not doubt prove an efficient worker.

Vincent R. Riley because of other interests did not spend as much time in campaign work as many of the candidates. Mr. Riley had the disposition also to somewhat put the matter up to the people, his feeling being that the wishes of the people should rule, that they knew him and his general reputation and if they were willing to support him he would appreciate that support and would strive to merit it. The fact that he has somewhat large interests no doubt was somewhat against him in the campaign.

The popularity of Grant Graff as a candidate was again shown and he has a heavy majority over his opponent, A. D. Arnold. Mr. Graff has a wide acquaintance and knows the political game so thoroughly that he is a formidable opponent for any candidate. The people have expressed confidence in him in a way which must be gratifying to him and he is thoroughly competent to handle the important affairs of the office.

Friends of H. H. Vasconcellos, present superintendent, rallied to his support in such a way that he was re-elected to that office by a comfortable margin. Mr. Vasconcellos during the years of his term has devoted himself to the school system and his work has given general satisfaction. Mr. Carter, his opponent, was thoroughly qualified for the office but lacked something of at least the country acquaintance of his opponent.

The election of Capt. J. M. Swales as county commissioner seemed to be generally conceded in advance. Capt. Swales is a man of the highest integrity and his exceptional war record brought him into special prominence in this campaign. He let the people understand clearly just where he stood in his ideas as to the management of county business and the approval of the public has been manifested.

Public Policy Questions.
The vote on the three ques-

tions of public policy was very much larger than is often true when questions are submitted on a separate ballot. In this instance the people were very largely interested in the questions submitted, and furthermore, a ruling from the attorney general's office as quoted to election officials, made it their duty to call the attention of voters to the little ballot and to make a return to the county clerk on the ballot just as well as on the larger one.

The good roads improvement proposal had been extensively advertised and the people realized that the entire amount of the proposed bond cost will be paid by automobile owners. Not so much personal interest was felt in the constitutional convention proposal but a majority of people felt that the endorsement by the Republican and Democratic state platforms, and the approval given by both Gov. Lowden and Ex-Gov. Dunne meant that the convention is needed. The banking act proposal did not have as much down state interest as it did in Chicago. However, the legal provisions were such that it took only a majority of the votes cast on that proposition to carry it, while for the other two propositions it was necessary to secure a majority of all the votes cast in the election in order to make a favorable decision.

Complete returns have not been received on the special questions but it is believed that all were approved by Morgan county people.

Public Policy Questions.
Only a very few of the precincts turned in the figures of the vote cast on the public policy questions, although in a number of instances where the figures were not given it was stated by election officials that strong majorities in favor of the propositions have been registered. The only figures available are as follows:

WITH THE COLORS

From Neil P. Sorrell.

Mr. and Mrs. Henry Sorrell of Literberry have received the following letter from their son, Neil P. Sorrell:

Camp Taylor, Ky., Oct. 13, 1918.
Dear Father, Mother and All: This is Sunday night, thought I would write a few lines, as I have plenty of time. How are you now? I am well and feeling fine. There has been a good deal of sickness here, but I have escaped so far. Seems to be lots of sickness back home too.

Well, I am still in the instrument work here. It is very interesting. Our course takes in various duties, some of them are Topography, Orientation of maps, use of different signals, and the semaphore, wig-wag, and Morse code. But the main study is range finding for the guns. We use the 3-inch guns. They are drawn by six horses.

We went on a hike the other afternoon, out in the country about five miles and back. We have lots of fun. The roads are fine to walk on here, they are hard roads.

We are to have pistol practice one day this week. The artillery uses the 45-Cal. pistol. We have no rifles. They took our horses away, said we would get some more pretty soon.

I spend a good deal of my spare time at the Y. All the boys think they are a great thing. They have services on Sundays. On Monday and Wednesday nights they have moving picture shows, and on other nights, lectures, talks, etc. I sure enjoy going there myself. Nearly all the men are pleasant and have a cheering word for everyone. Some of the boys call them "ads."

Well, I am still with five Morgan county boys who came down with me. Some of them are in France, some in other camps and a few left in this camp. I saw Everett Long the other night. Joyce Masters, who came down here with me is in a camp in Texas. Nearly all the fellows in my battery are fine fellows. We have a good deal of fun.

I met at the last of my box I got the other day. They are sure great surprises to a fellow. Another thing I appreciated is my mail. I have been pretty lucky in getting most of it. I sure enjoy hearing from different ones.

The news from across grows better every day, seems like they have the Hun on the run, for good.

Will close for this time, as it's about time for taps.

Hoping this finds all well. I am as ever, your son,

Neil P. Sorrell.

Camp Zachary Taylor, Ky.

P. S. Remember me to all the boys, and tell them to write.

From Harold H. Bartlett.

Harold H. Bartlett writes Mr. and Mrs. Ricks:

France, Oct. 12, 1918.

My Dear Mrs. Ricks:

Just received your magazines this morning, and was certainly glad to get them even tho they were too late to find me in the hospital.

I have recovered from my wound and have been back to duty for several weeks. I got back from the hospital just in time to make another trip to the front, the best trying I believe I have ever been in.

We spent ten days in the lines and made four different attacks. Am still pretty tired and weak owing to the strain we have been under, and have been lying around reading Christian Herald's all day.

I suppose you know I was well acquainted with Henry, but I have never had an opportunity to see him since he left Quantico, Virginia.

I understand his company has been sent to the front recently. Hope he is as fortunate as I have been in the past.

I certainly appreciate your kindness in sending these papers to me and wish to thank you for your thoughtfulness.

Very sincerely yours,

Pvt. Harold H. Bartlett.

Death of Johnny Vallery.

Mrs. Hattie Vallery received the sad news of her son Johnny's death, somewhere in France Monday morning. Johnny was one of the boys who left Jacksonville in February of this year going to Camp Taylor. He was in camp until July 1st when he sailed across. His folks had never received word from him after landing but the letter received Monday stated he died of disease July 28, somewhere in France.

He was next to the youngest child of a family of eight children, all of whom are living. His mother also survives, his father having died several years ago.

Our surrounding community of friends extend their heartfelt sympathy to the family in their sad and untimely bereavement.

TELEGRAPH BRIEFS

AMSTERDAM, Nov. 5.—Emperor Charles of Austria according to a dispatch from Vienna handed over the supreme command of the Austro-Hungarian army to Field Marshal Kievers on November 2.

WASHINGTON, Nov. 5.—Troops of the American first army which today forced a crossing to the east bank of the Meuse at Breuille and Clerly-le-Petit, continued their progress. The west bank of the river as far north of Pouilly is now in American hands.

AMSTERDAM, Nov. 5.—Austria will protest against the interpretation of any clause in the armistice as meaning that enemy armies are entitled to attack Germany thru Austria, according to advices from Vienna.

WITH THE FRENCH ARMY IN FRANCE, Nov. 5. 11 p. m.—(By The Associated Press.)—The German artillery began a strong reaction upon the French positions southwest of the Ech-Seraingourt road at three o'clock this afternoon and continued very active along the Aisne between Rethel and Attigny.

LONDON, Nov. 5.—The British armies in the sector between the Sambre and the Scheldt have defeated in the battle which began Monday, twenty-five German divisions. Field Marshal Haig reports from headquarters tonight. In addition to capturing many more villages today, the British have passed thru the Great Mormal forest.

PARIS, Nov. 5.—The retreat of the Germans between the Sambre canal and the Aisne gained impetus today, according to the war office announcement tonight. The French troops cleared the enemy out of large sections of territory making an advance which at certain points reached a depth of more than six miles.

LONDON, Nov. 5.—via Montreal.—Newspapers of London today reproduce a map of English and Irish territorial waters showing positions of hundreds of ships the enemy alleges he has sunk by submarines. The map was issued as pro-submarine propaganda in Germany. The Daily Mail suggests that the map be used as a basis for reparation for loss of the ships.

WITH THE FRENCH ARMY IN FRANCE, Nov. 5.—(By The Associated Press.)—After yesterday's defeat in the region of the Oise with the loss of 4,000 men made prisoner and sixty cannon captured, the Germans began a general retreat over the entire front of the first army this morning. General DeBenedy's men entered Guis at 6:30 o'clock and pushed on six miles further east in pursuit of German rearguards.

FOCH HAS TERMS OF ARMISTICE FOR HUNS

(Continued from Page 1.)

such an armistice possible from the military point of view.

"The president is now in receipt of a memorandum of observations by the allied governments on this correspondence which is as follows:

"The allied governments have given careful consideration to the correspondence which has passed between the president of the United States and the German government. Subject to the qualifications which follow they declare their willingness to make peace with the government of Germany on the terms of peace laid down in the president's address to congress of January 1918 and the principles of settlement enunciated in his subsequent addresses. They must point out, however, that the clause relating to what is usually described as the freedom of the seas is open to various interpretations, some of which they could not accept. They must, therefore, reserve to themselves complete freedom on this subject when they enter the peace conference.

Further, in the conditions of peace laid down in his address to Congress of January 8th, 1918, the president declared that invaded territories must be restored as well as evacuated and freed, the Allied governments feel that no doubt ought to be allowed to exist as to what this provision implies. By it they understand that compensation will be made by Germany for all

damage done to the civilian population of the Allies and their property by the aggression of Germany by land, by sea and from the air.

"I am instructed by the president to say that he is in agreement with the interpretation set forth in the large paragraph of the memorandum above quoted. I am further instructed by the present to request you to notify the German government that Marshal Foch has been authorized by the government of the United States and the Allied governments to receive properly accredited representatives of the German government and to communicate to them the terms of an armistice.

"Accept Sir the renewed assurances of my highest consideration.

(Signed) "Robert Lansing."

CONCORD PRECINCT TAKES FOUR ORPHANS
Report From Miss Dietrick Shows Generous Response to Appeal—Purpose of Movement Is Outlined.
Mrs. W. T. Scott, chairman of the committee for the relief of French children, has received the following letter from Miss Carrie Dietrick of Concord, precinct:
"Our committee did such splendid work that thru the generosity of my friends, John Nickel and wife, Concord precinct is able to take four children for a year."
This is certainly a fine showing and means that the county as a whole will pledge to care for more than its minimum quota.
The work is one which has its strong appeal. It's general purpose is well outlined by the general committee as follows:
"The Fatherless Children of France committee gives a chance to help France immediately, more practically more enduring than any other war charity. The men of France have died fighting for..."
Ambition
TIRED MEN AND WOMEN who "feel old before their time," who are languid, have no energy and lack ambition—these are often sufferers from kidney trouble.
Weak, overworked or diseased kidneys are indicated by ambitionless, always tired, nervous condition, by sallowness of skin and puffiness under eyes, backache, stiff joints, sore muscles, or rheumatic pains.
Foley Kidney Pills
get right at the cause of suffering and misery, regulate the kidneys and bladder and restore to sound and healthy condition.
N. R. Reese, Dublin, Ga., writes: "I want to say I am better. Before I started to take Foley Kidney Pills I could not turn over in the bed. I had such severe pain in my back and hips. I was so stiff I could not bend over and I had to get up at night five to six times. By taking Foley Kidney Pills I am up and able to go to work."

CELEBRATES GOLDEN WEDDING
Mr and Mrs. S. M. Govaia of 287 South Chestnut street at Litchfield were married fifty years ago, Nov. 1, 1868 in Jacksonville, Ill. They have three sons and six daughters, one daughter having died twelve years ago. She was the wife of W. S. Reeves.
Mr. Govaia is employed at the Litchfield Creamery Company. He thought he would not work on the anniversary, and while he was up town, the children came with well-filled baskets and boxes to surprise the parents and celebrate the occasion.
Those present were Warren and Everette Reeves, sons of the departed daughter; Mr. and Mrs. C. M. Nicholas, of Zanesville, and daughters, Ruth and Marie and Grace who is now the wife of Harold Clarkson; Mr. and Mrs. R. T. Govaia and son, Maynard of Litchfield; Mr. and Mrs. L. O. Starr and son, Marion and daughter, Harrison Lee of Nokomis; Mr. and Mrs. William H. McKinney and sons, Claude, Earl and Ralph; and daughter, Wilma of Witt, Ill.; Mr. and Mrs. Thomas M. McClurg and son, Merrett and daughter, Edna of Hillsboro; Mr. and Mrs. C. J. Govaia and daughters, Thelma and Mary Frances of Hillsboro; Mr. and Mrs. Glenn Govaia, and son, Floyd Gleson of Hillsboro, and Nellie M., at home.
All of the living children and grandchildren were present and the two great grandchildren, son and daughter of Mr. and Mrs. Harold Clarkson, of Barnett, Ill. There are seventeen grandchildren living, and five dead.
Mr. and Mrs. Govaia received eight five dollar gold pieces, one came from the Litchfield Creamery, and two two and one-half dollar gold pieces, and Mrs. Govaia a gold headed cane and Mrs. Govaia, a pair of gold bowed glasses and many beautiful flowers. They had made a picture of the whole family and then one of the four generations, also one of the table.
It was a day long to be remembered. It would have been more pleasant to have invited all friends, but on account of the present ban, they could not and they regret it very much.

FUNERAL NOTICE
Funeral services for Mrs. Joseph Wolke will be held at Diamond Grove cemetery at 10 o'clock this morning.
QUICK RELIEF FROM CONSTIPATION.
Get Dr. Edwards' Olive Tablets
That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.
Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.
Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.
No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.
If you have a "dark brown mouth"—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.
Thousands take one or two every night just to keep right. Try them, 10c and 25c per box. All druggists.

MAJ. C. E. BLACK WRITES ABOUT OVERSEAS TRIP

Members of Greek Commission Had Safe and Pleasant Voyage —Some Incidents of Travel—Members of Party Study Greek Daily.

The following letter was received by relatives of Major Carl E. Black, who is with the Red Cross commission which several weeks ago was sent by the U. S. to Greece. The letter was written on board the steamer on which the members of the commission were passengers and presents some very interesting facts.

On Board La Lorraine, Oct. 4, 1918.

"The general idea today is that the mail of the Red Cross commission will be treated liberally and that we may write rather freely. Of course in New York the greatest care is taken to guard the docks and all the approaches—each one who has business at the dock must secure from the customs officials an embarkation card which must be shown at the gate. After the baggage is examined there is another strong guard at the gangway where you pass your passport. As carefully examined your embarkation card is taken up and then you go aboard and no one is permitted to go off the ship after this.

"In the slip opposite us was a great liner filled with soldiers. They were a wonderful sight as they lined the deck rails—not much sign of laughing and merriment—many were no doubt seeing the water for the first time, and as I looked at them thru my glasses thoughts of home and family were plainly written on their faces. In fact, we were all impressed with the seriousness of the occasion—not exactly a fear but a wonder, and a doubt as to what the future may have in store for us. Of course the soldier boys know that some will not return, but all looked brave like true soldiers.

"It is certainly wonderful how America in so short a time has been able to so thoroughly and effectively organize an army of millions and transport them so far with almost no disasters. While Germany was saying it could not be done we have done it.

Taking No Chances.

"Later in the afternoon after we had dropped down the river and joined the convoy, just as you have seen described in some of the magazines, it became perfectly plain why our soldiers have been safely landed overseas. In leaving the harbor we consisted of seventeen ships, our own being the only passenger steamer—the others battleships, destroyers and transports. Soon one of the ships sent up a great captive balloon—that is it remained attached to the ship but its observer was high up where he must have had a wonderful view of the sea. Next a great dirigible was sent up and circled about in a most dignified fashion, quite in contrast with two seaplanes which soon appeared and began to fly back and forth and cross wise, always with that roaring sound characteristic of the air motor. We were certainly thankful that we were citizens of a nation which is amply able to protect us.

"We had quite a different feeling on the evening of the second day, when La Lorraine pulled away from the convoy to go it alone—this to save time as of course the convoy cannot go faster than the slowest ship and by going alone we would be able to cut several days off the trip, but everyone felt just a little lonesome and no doubt most would have been willing to have been on the sea a few days longer rather than part with such good company.

A Pleasant Voyage.

"Altogether the voyage has been a pleasant one. The weather and the sea have been fine. The company and the food have been agreeable. About the only disagreeable thing has been the necessity of closing port holes and other openings at night so that no light could be seen about the ship—not even a cigar could be lighted or smoked on deck. As a result the smoking rooms, saloons and staterooms would soon become very close and the air quite foul, so that by morning one would feel the necessity of getting out into the fresh air. Passengers would spend as much time as possible on deck in order to get

their lungs aired out and their blood reoxygenated. Fortunately the weather has been favorable. We saw only one ship during the voyage until we were within two days of Bordeaux. Two days before the time of our arrival we were met by a French destroyer which followed closely in our wake all the way into port. The appearance of this naval escort gave a wonderful feeling of confidence to the passengers.

Travel Not Like Pre-War Days.

"Travel now is not at all the same as in the pre-war days. The typical tourist as he was formerly in evidence is not seen. There are a few business people and some who are returning home or who have some special privilege for going across, but the large majority are connected either directly or indirectly with the military establishment.

"I will give you a list of some of the main parties. The Red Cross has: 1. The Greek commission. 2. The Serbian special commission. 3. The secretary of the national Red Cross, Dr. Stockton Axson, (brother-in-law of President Wilson); Mr. Burr, a deputy commissioner to France; Miss Taft, who goes to France to have charge of the Women Workers and quite a number of other individuals connected one way or another with the Red Cross. 4. The Y. M. C. A. has a number of men on the way to work in France. 5. Several K. C. men. 6. A party of Salvation Army men. 7. Two ladies and three men from the Society of Friends on their way to do relief work in France. 8. A group of lady chauffeurs on their way to France. 9. A party of 175 soldiers who were sick when their regiments went to France. 10. A party of 286 Czechoslovaks, in charge of Dr. Joseph Beck, (born in Hungary but now an American citizen) who are on their way to Italy to fight with their fellows. 11. A number of U. S. army officers on their way to France and Italy to join their commands.

Studying Greek.

"I may have forgotten some but this gives you some idea of the people who travel the ocean these days. I should have mentioned the Serbian minister to the U. S., a remarkably interesting man of progressive and democratic ideas who has great confidence in the ultimate union of his race into one nation with an opportunity to develop. This will give you a poor sort of an idea of our voyage and of our ship's party. The commission seems congenial and earnest. Every day we have had classes in Greek, conducted by Prof. Capps, and Prof. Denning, (secretary of the commission.)

It seems a long time since I left home and I have only had three letters from home. I have been told since coming aboard there were letters for me at the Red Cross headquarters which were not sent abroad—perhaps I will get them in Paris. I will close now, though I may add a few lines yet before it is posted. Give my regards to everyone who was so kind to me at my going.

P. S.—Almost unexpectedly we are at the mouth of the river and will be in Bordeaux tonight and on our way to Paris.

DOING HIS PART

Rev. W. H. Halley, who is publisher and editor of the Barry Record, conducts as his letter heads suggest: "A clean, newsy popular home paper." As Mr. Halley has three sons in the army service he is now practically alone in his office work and so finds it difficult to complete all of his work in the daily grind of newspaper business.

W. A. FAY RECEIVES PROMOTION AT CAMP HANCOCK, GEORGIA

Relatives of William A. Fay, who for several months past has been in the ordnance school at Camp Hancock, Augusta, Ga., have been advised that he was recently promoted to sergeant. He is now located with the 9th Caval Company of the First Provisional Regiment at the Officers' Training camp at Camp Hancock.

INFLUENZA CONDITIONS MUCH WORSE IN CITY

Seventy Five Cases Reported Yesterday to Office of Health Warden — Three Have Pneumonia.

The influenza report yesterday was less satisfactory than day before, as records in the office of Capt. Allen M. King, city health warden, showed 75 new cases and three cases of pneumonia. There is every reason therefore, why the quarantine restriction should remain in effect and be more strictly observed than in past weeks.

In fact, it is quite possible that increase in the number of cases was in some measure due to laxness during recent days, as a number of residents had begun to feel that the worst was over and that the quarantine restrictions were irksome and unnecessary. The increase in the number of cases, however, proves that there must be the greatest care on the part of the public in order to prevent a further spread of the disease.

RED CROSS NOTES.

Under the department of the Home Service and Civilian Relief of the Morgan County Chapter a large amount of work has been accomplished during the past month. In the official report assistance was rendered in over 300 cases, consultation was made in 171 cases and financial assistance rendered where the need was proven. The different cases show a variety of services. Many telegrams were sent and received concerning either the condition of the boys in the camps or that of their relatives in Morgan County.

Many of the immediate relatives of the soldiers have been helped in their endeavor to get the necessary allowances and allowances. Mrs. Montgomery has visited a large number of the families of the soldiers in order that the home might be kept in going order. Miss Marion Capps has undertaken the secretaryship of the department and has proven her worth in dealing with the different problems which come up in connection with the life of a soldier. It might be well to announce that this department of the Red Cross is as effective as any agency at present working in the interest of the soldiers in the Camp. Night and day the Civilian Relief in the home town and the Field Service in the Camp are ready to work in the welfare of the men.

LIEUT. WEIRICH SOON TO GO OVERSEAS

Lieut. W. H. Weirich, who has been located at the base hospital at Camp McClellan, Ala., has received order to proceed to Alhambra, Pa., where he will be attached to Mobile hospital No. 101. This unit will probably go overseas at an early date. Mrs. Weirich at the camp and was very active in Red Cross work assisting in the terrible epidemic of influenza at the camp.

In writing to a Jacksonville friend Lieut. Weirich said that no one can have an idea of the wonderful amount of good the Red Cross does unless he has been on the scene of action at a time of great stress like that occasioned by the recent epidemic. The mortality rate at Camp McClellan was low by comparison with some other camps, but there were a vast number of deaths.

THREE AUTO ACCIDENTS YESTERDAY

Automobile accidents were rather frequent yesterday. Fortunately no one was hurt.

In the morning Perry Correa was driving T. M. Johnson's Ford to the polls taking F. J. Andrews and Lee P. Alcott to vote. As he drew near the store of Frank Byrns Bert Young was coming out of Morgan east and really not owing to the fault of either, the cars collided. The front end of Mr. Tomlinson's car was bent, the running board twisted and the front fender broken. Mr. Young's car was much heavier but it suffered a bent running board and some minor injuries. Mr. Tomlinson's car had to be taken to the shop.

As Paul Samuel was leaving home in his car in the morning he drove out into the street and managed to collide with a street car which rather injured his car tho no one was hurt.

James Heiser and his brother were taking some goods to Beardsdown in J. W. Woods' taxi and as they rode out on West Lafayette avenue they came to a place in the road where the grading was steeply inclined to one side and the center was a lot of rough clods and soil. Avoiding this their car turned turtle hurting the men tho not seriously. The car was considerably damaged.

WILLIAM KITNER AND

THE A. L. A. Two notes from Sergeant William Kitner who used to work at the public library have been received there this week. He is in a hospital in Bordeaux and has been for some time, but he is cheerful and in both notes mentions his appreciation of the War Library Service of the A. L. A. In the last note he writes: "Am still in the hospital, but am feeling fine. Read Harte's Under-stand the French today. It is absolutely true in every respect as far as I have seen and can see. Am expecting letters from you when I get my mail—six weeks since I have had a letter." The hospital libraries are certainly a boon when mail is delayed and the boys have long days on their hands.

SOME CORN HUSKING

The time for corn husking stories has arrived and they will be used in this office in the order in which they are received. H. W. Simpson, a thoroughly reliable farmer of the vicinity of Prentice has ninety acres of fairly good corn. He is paying six cents a bushel for husking and has a man named Henry Wilson husking for him. Mr. Simpson said yesterday to a Journal reporter that Wilson right along husked and cribbed not less than a hundred bushels each day he worked a full day and Monday he shoveled into the crib 110 bushels. Mr. Simpson came to town to hunt for huskers and found three whom he was taking for himself and neighbors.
